## SUMMARY

---

Enthusiastic frontend developer with a strong focus on creating neat, responsive, and interactive user experiences. I strive to build products that not only provide seamless interactions but also simplify the lives of other developers who work with my code. With a collaborative mindset and a continuous drive for learning, I am eager to improve my skill set, gain valuable work experience, and make impactful technical contributions on a global scale.

## SKILLS

---

### Technical Skills

- Languages: JavaScript, Typescript
- Web Technologies: HTML5, CSS3, TailwindCSS
- Frameworks: VueJS, Nuxt
- Web Services: REST

### Soft Skills

- Familiarity with Agile development methodologies such as Scrum and Kanban
- Strong ability to work efficiently in a team and also deliver excellently on personal tasks.
- Clear and concise written and verbal communication skills.
- Proven ability to quickly grasp new concepts and technologies.
- Adaptability and problem solving skills
- Pixel-perfect UI conversion with a focus on great UX and clean, maintainable code for developers

## EXPERIENCE

---

### Frontend Developer

May 2024 – Present

[MySpurr](#), Abuja, Federal Capital Territory.

- Developed HTML email templates for user onboarding and Admin-User interactions, improving communication and engagement.
- Enhanced app responsiveness and ensured cross-browser compatibility, delivering a seamless user experience across multiple devices and platforms.
- Designed and integrated events and blog features, increasing user engagement and retention.
- Led the development and successful integration of in-app messaging, improving communication between clients and businesses—resulting in ₦13 million in job connections.
- Delivered pixel-perfect UI conversions, enhancing visual appeal and ensuring a smooth, consistent user experience.

### Frontend Developer

February 2024 – May 2024

[GeoHazards Risk Mapping Initiative](#), Abuja, Federal Capital Territory.

- Revamped GRMI's official website, reducing loading time by over 50%, enhancing speed, performance, and overall user experience
- Optimized website SEO, increasing site visibility and boosting organic traffic.
- Integrated Google Analytics to monitor user engagement and gather actionable insights.
- Developed a contact page to collect user feedback, thoughts, and volunteer interests, improving community engagement.

### Freelance Frontend Developer

June 2023 – May 2024

- Collaborated with multidisciplinary teams to develop fully functional, scalable web applications across various industries.
- Debugged and optimized existing codebases, enhancing interactivity and overall performance.
- Developed test code and implemented features to strengthen site security and improve performance.

- Designed and built the [Sports Continent](#) e-commerce website, ensuring a seamless shopping experience.

## Frontend Developer Intern

June 2022 – June 2023

DEMLINKS Technologies, Ilorin, Kwara State.

- Troubleshoot and debugged code, ensuring seamless compatibility across devices, browsers, and operating systems.
- Collaborated with cross-functional teams to develop fully functional and scalable web applications
- Authored front-end code for responsive web applications, optimizing for performance and scalability using modern JavaScript, HTML5, CSS3 and VueJS.
- Collaborated with the design team to transform designs into pixel-perfect UIs, ensuring a seamless UX that garnered positive user feedback
